GANSK®

"Elegance, Design, and Simplicity, the three qualities that shape our profile serving as an inspiring pillar for all our creations."

THE BRAND

GANSK is a young brand of furniture and décor, distinguished by its modern, clean and elegant designs. It is part of Albino Miranda Ltd, a company founded in 1989 that already has a large portfolio in the world of furniture, sculpture and décor, supported by a team of over 30 highly committed and talented professionals.

Designed for all kinds of environments, with interior solutions mixing noble and luxurious materials with bold finishes in the most diverse furniture pieces, however, it is in outdoor that GANSK shines and becomes a unique solution, combining fiberglass with the most durable finishes and materials in a wide range of solutions.

THE PURPOSE

The choice of resins reinforced with fiberglass as raw material for all GANSK products is based on its natural flexibility, strength and adaptability to the most daring shapes, all factors that would be decisive for GANSK's final goal: to give a new look to the furniture world with distinctive products that can be adapted to all kinds of environments and allow total creation freedom.

GANSK's furniture is hand-made with a rigorous process that ensures its quality. This handcrafted process and the will to serve well, are the main factors that make GANSK an excellent ally in decoration, adjustable to any kind of need.

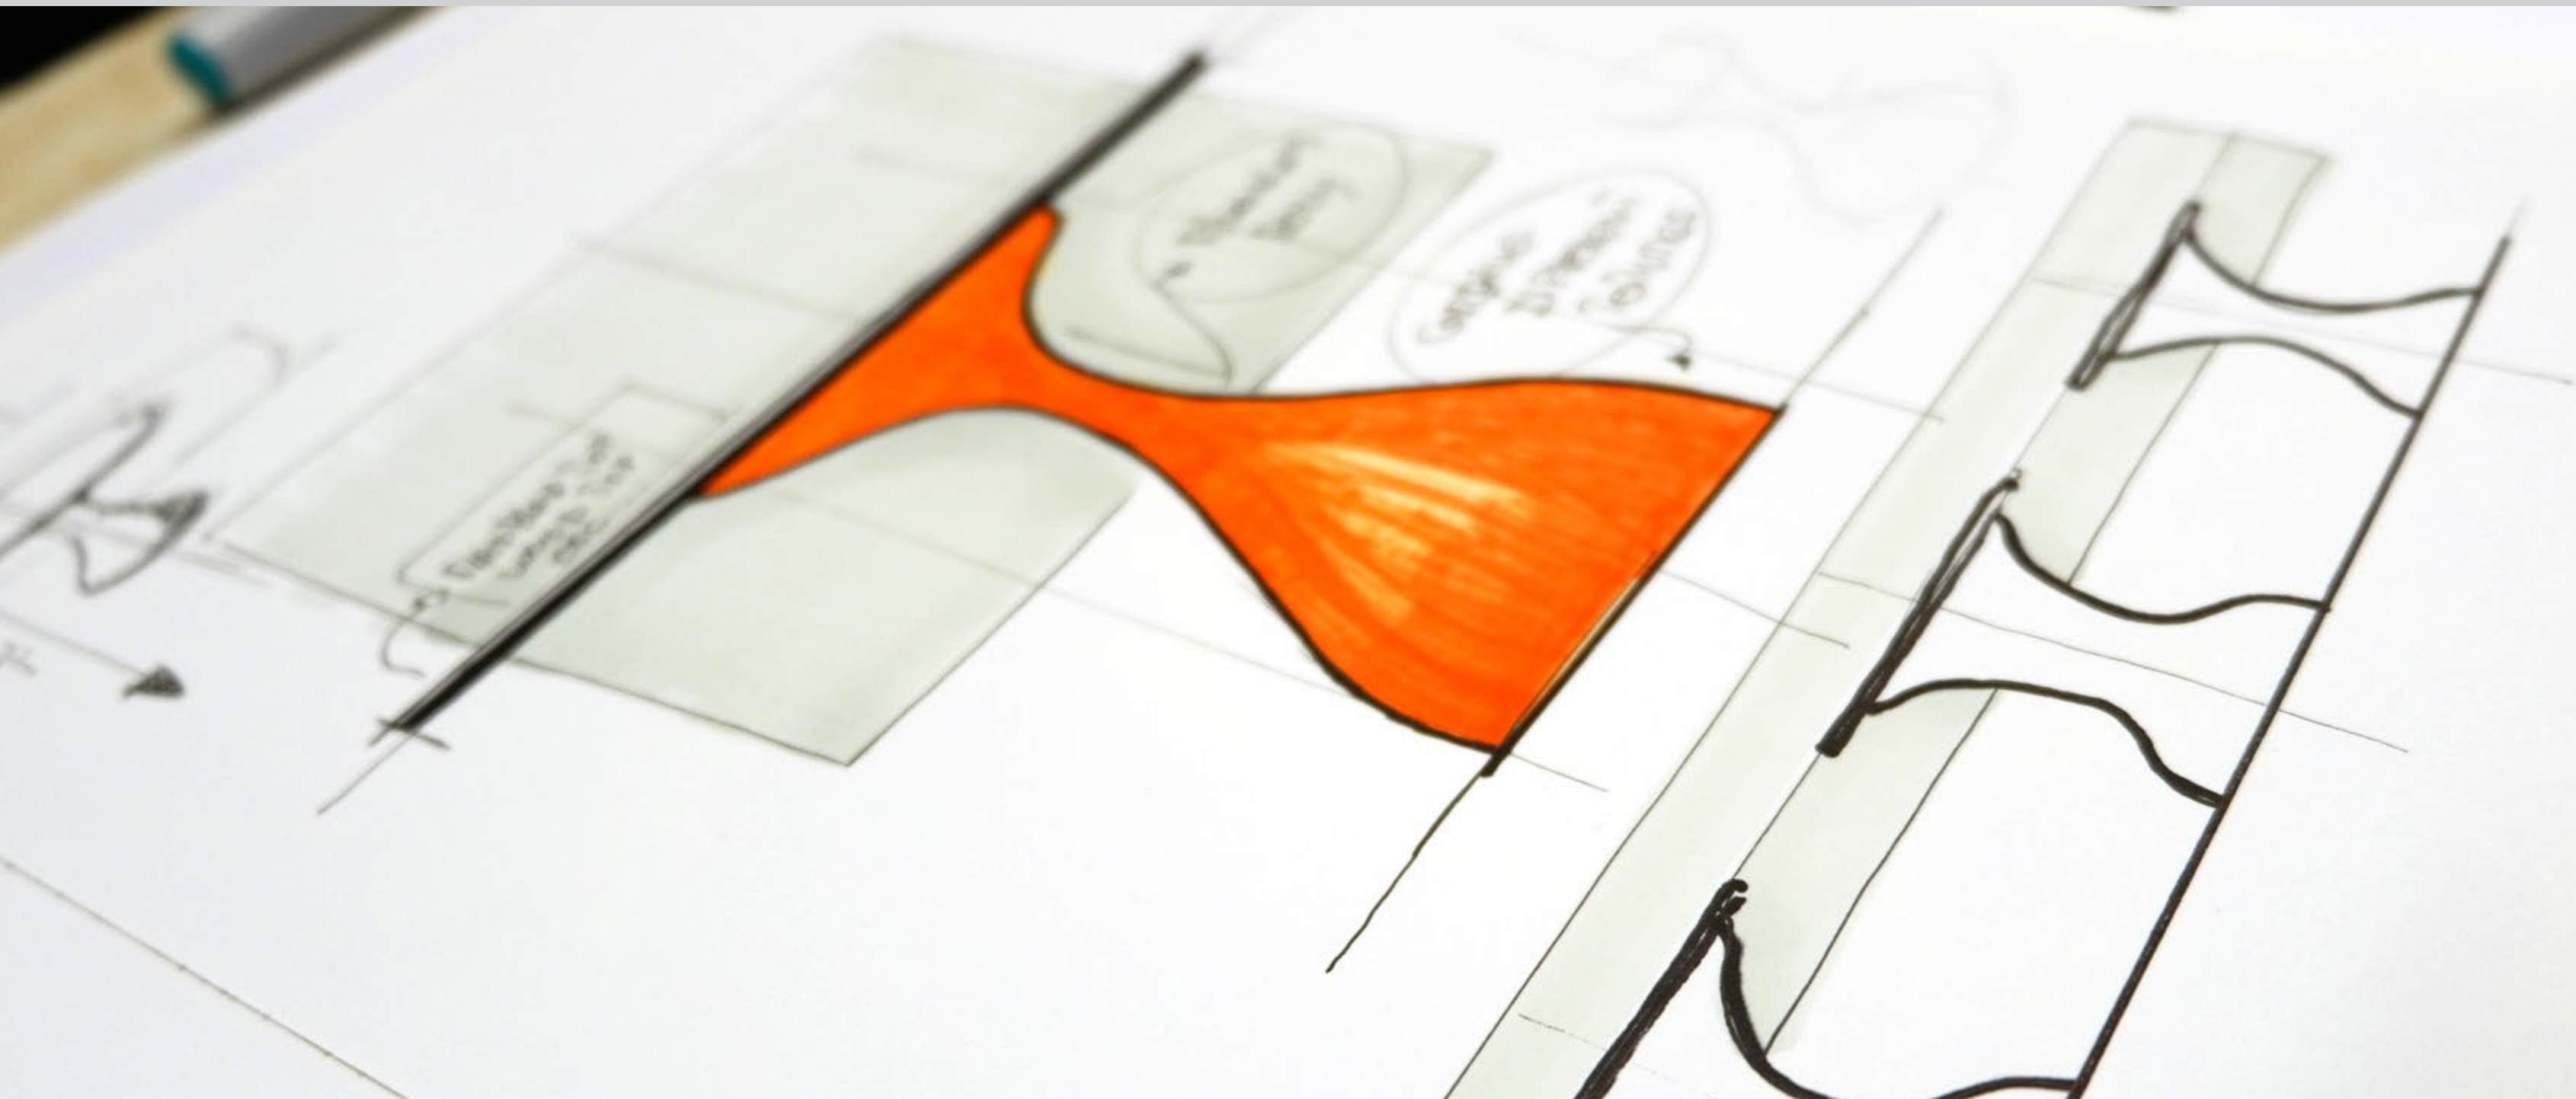

THE FUTURE

At GANSK we believe that optimizing production methods, along with a sensible selection of raw materials, are key factors for a sustainable and environmentally friendly business. Our fully handmade procedures guarantee the quality and durability of the products, minimizing waste and therefore the environmental impact.

Investing every day in better quality and variety is our priority, gradually expanding our offer and allowing each customer to dream higher in their creations.

We believe that it is possible to create glamorous, unique, and irreverent environments through modern and elegant solutions, where each detail directly reflects the soul and passion of the customer.
